Model Makers

Trust. Quality. Craftsmanship.

We are a premier model-making service with a 40-year legacy of crafting exquisite yacht models. Our dedicated team is renowned for meticulous attention to detail and consistently surpasses client expectations on every project.

With a blend of traditional craftsmanship and modern techniques, we excel in replicating even the most intricate designs with lifelike precision.

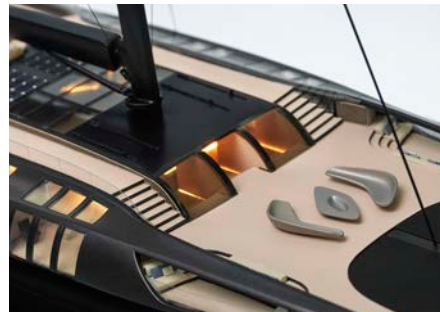

We offer unparalleled confidentiality and service excellence, ensuring trust and satisfaction at every step.

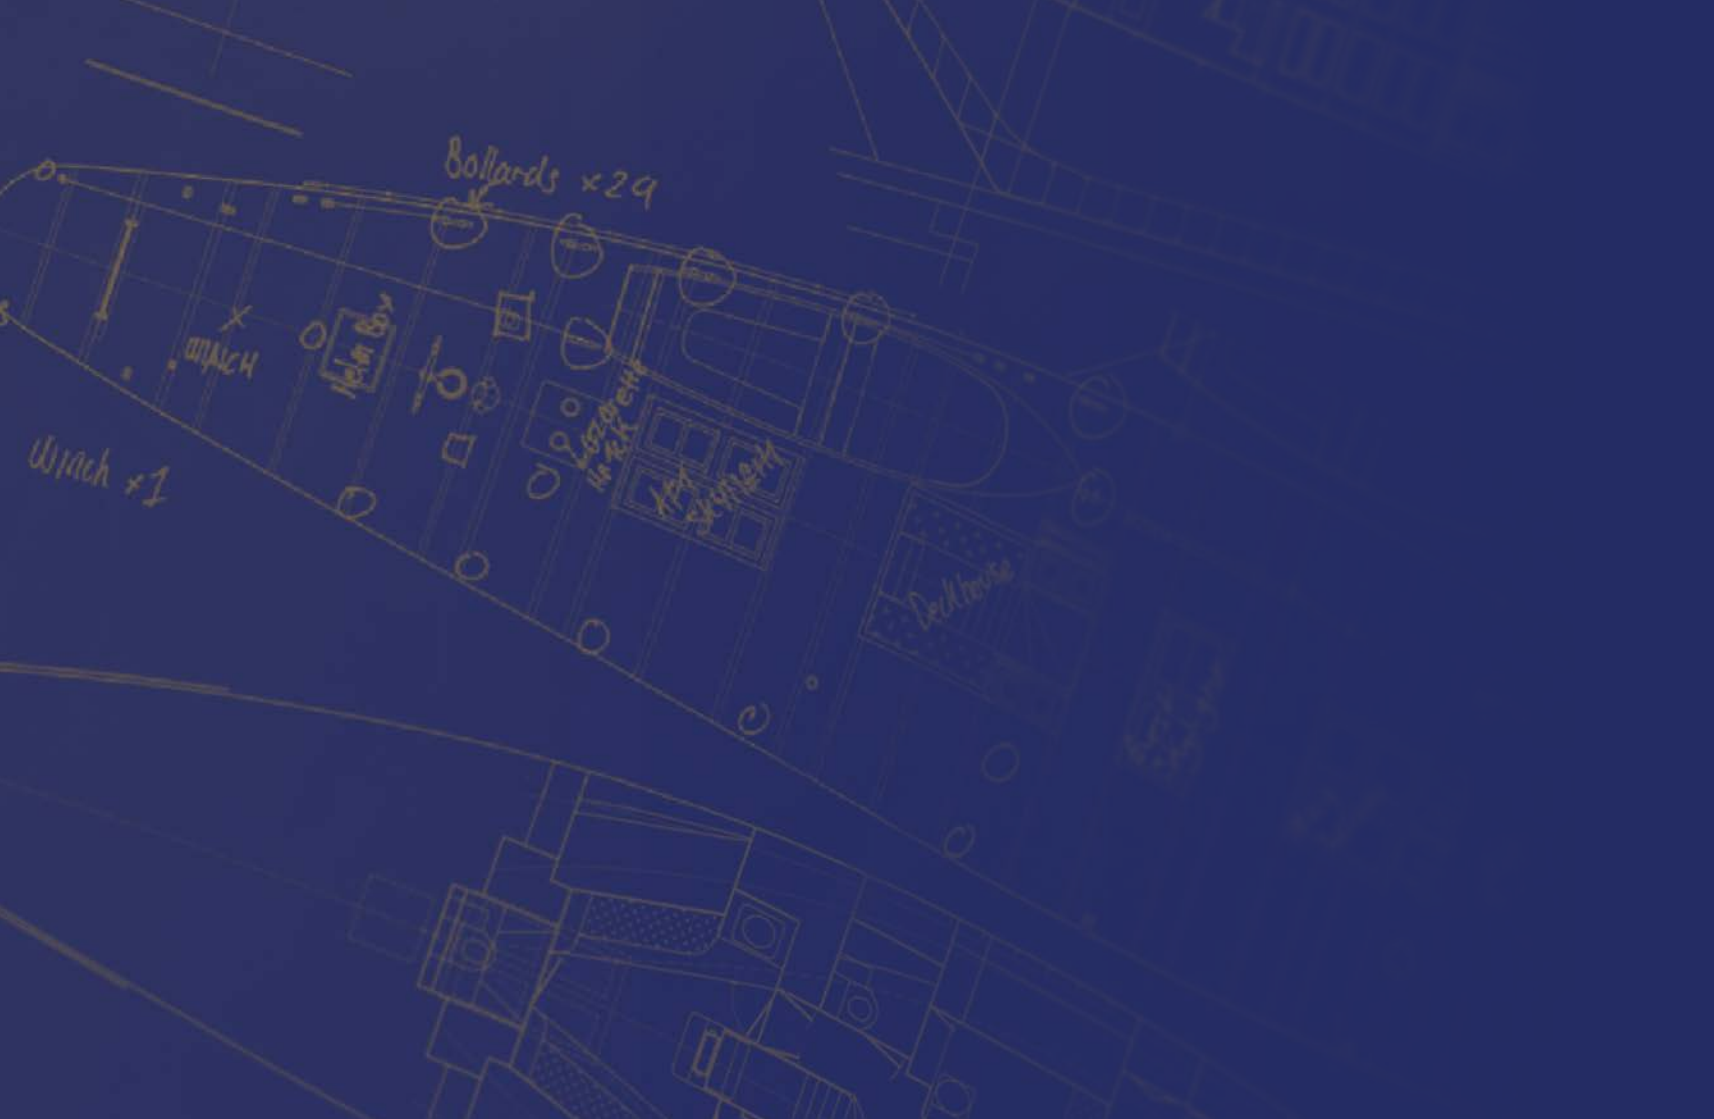

Your Vision. Our Service.

Meeting our clients' wants and needs is paramount. It's about blending quality, precision and attention to detail seamlessly, accompanied by top-notch service. Our extensive experience and honed skills are key.

We function as a cohesive unit, leveraging each other's diverse skills while remaining adaptable, yielding numerous advantages. Upholding confidentiality is integral to this ethos - as is the significance of consistent client communication and trust-building.

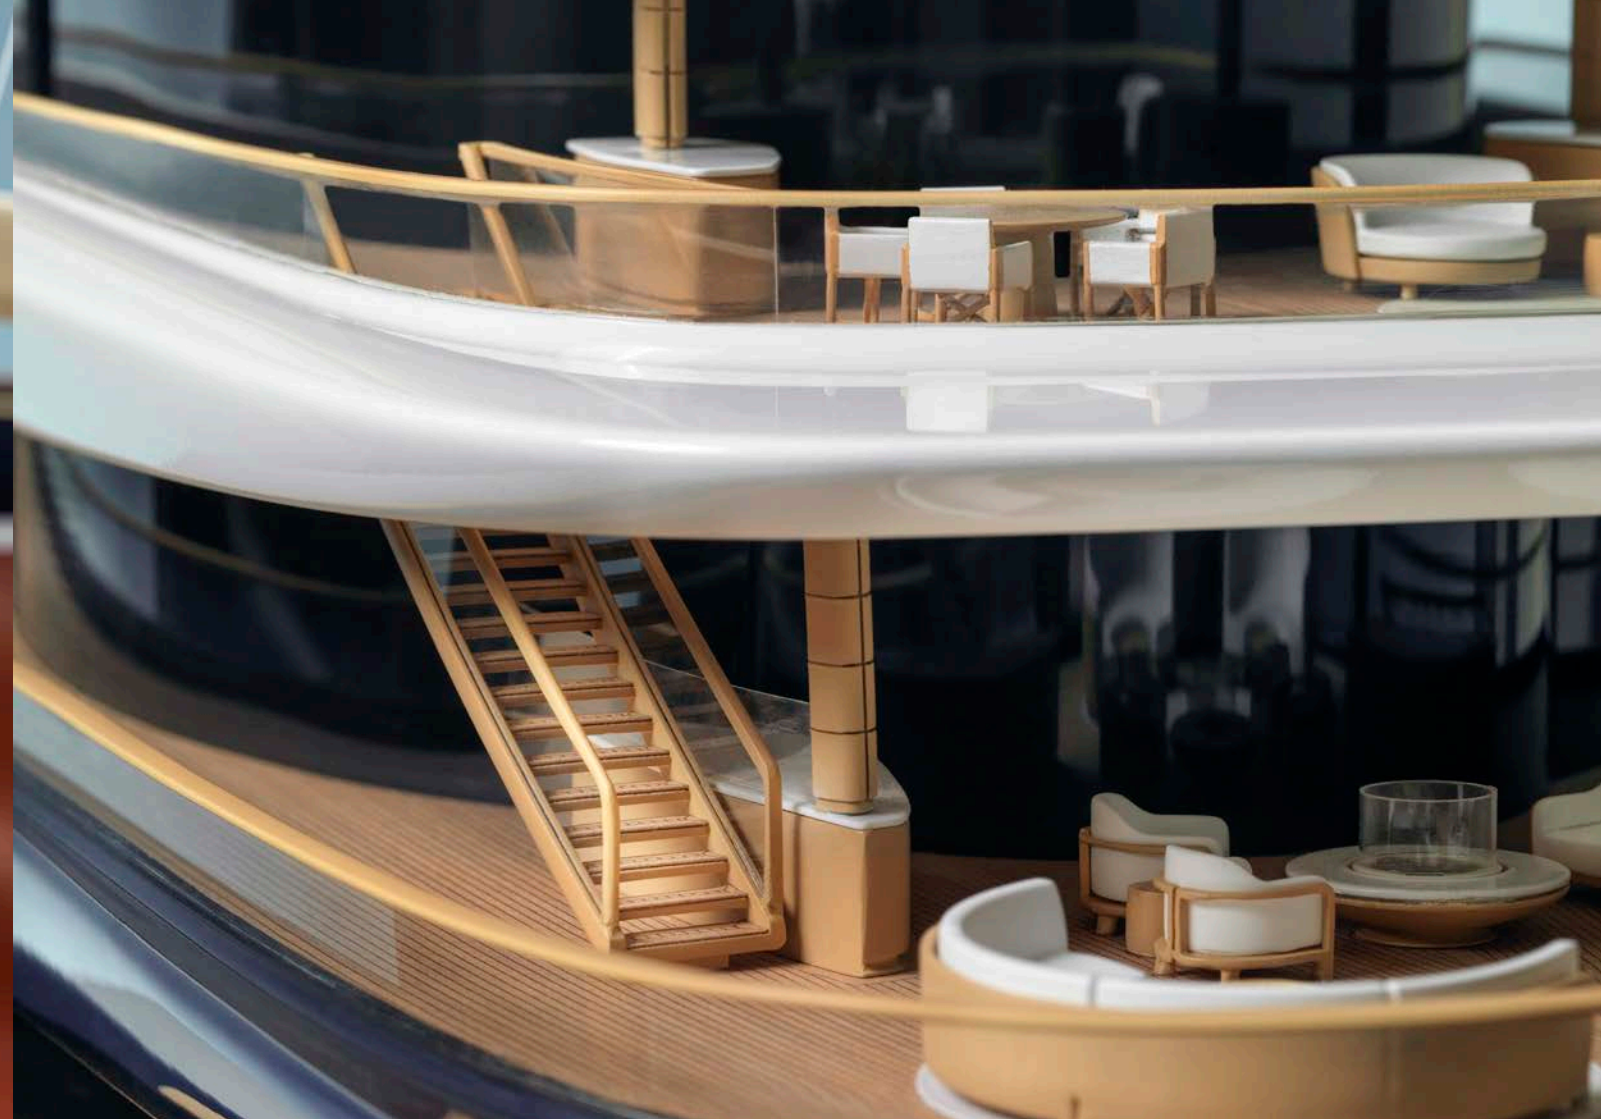

Difference in the Detail

We deeply respect the dedication, passion, and skill involved in yacht design and construction. Understanding the artistic significance to our clients, we strive to mirror this essence in our models.

Detail encompasses more than just furniture and railings; it encompasses the entire model's accuracy. Utilising our expertise, we meticulously ensure scale precision and lifelike realism, capturing nuances like light reflecting off the hull or intricate rigging.

Regardless of the model type, every detail must be flawless, whether replicating a knuckle line or matching paint colours precisely.

Models for Every Moment

Detailed Models

Our Detailed Models are truly lifelike, from the scale of the furniture to the tone of the lights; nothing is missed to ensure complete accuracy. These models can be finished to any scale or level of detail, including LED lighting features and moving parts. Any style of base and presentation is possible, and cases can be acrylic or glass.

Miniature Models

Working at a 'super' small scale, we can make short production runs of as few as five models. From miniatures of historic yachts to corporate miniatures for regattas, our team is flexible to your needs.

Models For Gifts

Custom yacht models are deeply meaningful gifts for owners, captains and professionals alike, capturing every unique detail of a yacht and preserving the memories of a lifetime spent on the water.

Studio Models

We have various ways of producing rapid prototype models. We have in-house 3D and CNC equipment, and we can also produce rapid models by hand from 2D drawings and sketches. Any number of features and details can be included.

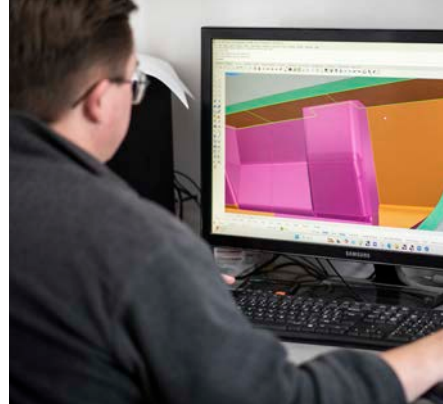

The Art of Perfection

Achieving a level and quality of finish that is both faultless and to scale is vital. It does not matter whether it is a 3D printed Studio Model or a Detailed Model, every product that leaves our workshop will have the same exceptionally high standard of finish.

One of many must-have features is an excellent paint finish. But getting the right finish on all details of the model is just as vital.

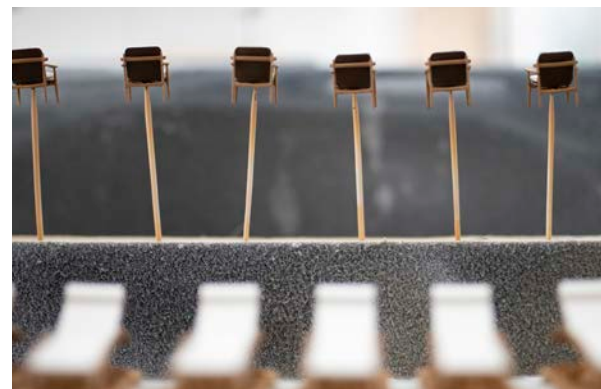

Innovation Meets Tradition

We've remained agile as technology has evolved, transitioning from paper design drawings to digital 3D files, embracing innovation while upholding traditional craftsmanship.

This blend of old and new enables us to cater to diverse client needs and deadlines effectively.

Embracing the latest advancements, we've invested in cutting-edge technology like our in-house 3D printing machines, supervised by Jac Thomas, a specialist in 3D printing. This technology proves invaluable for swift Studio Model production upon client request.

Innovation means continuously exploring novel production methods - we merge forward-thinking techniques with traditional artistry to evolve and adapt to the dynamic demands of the industry.

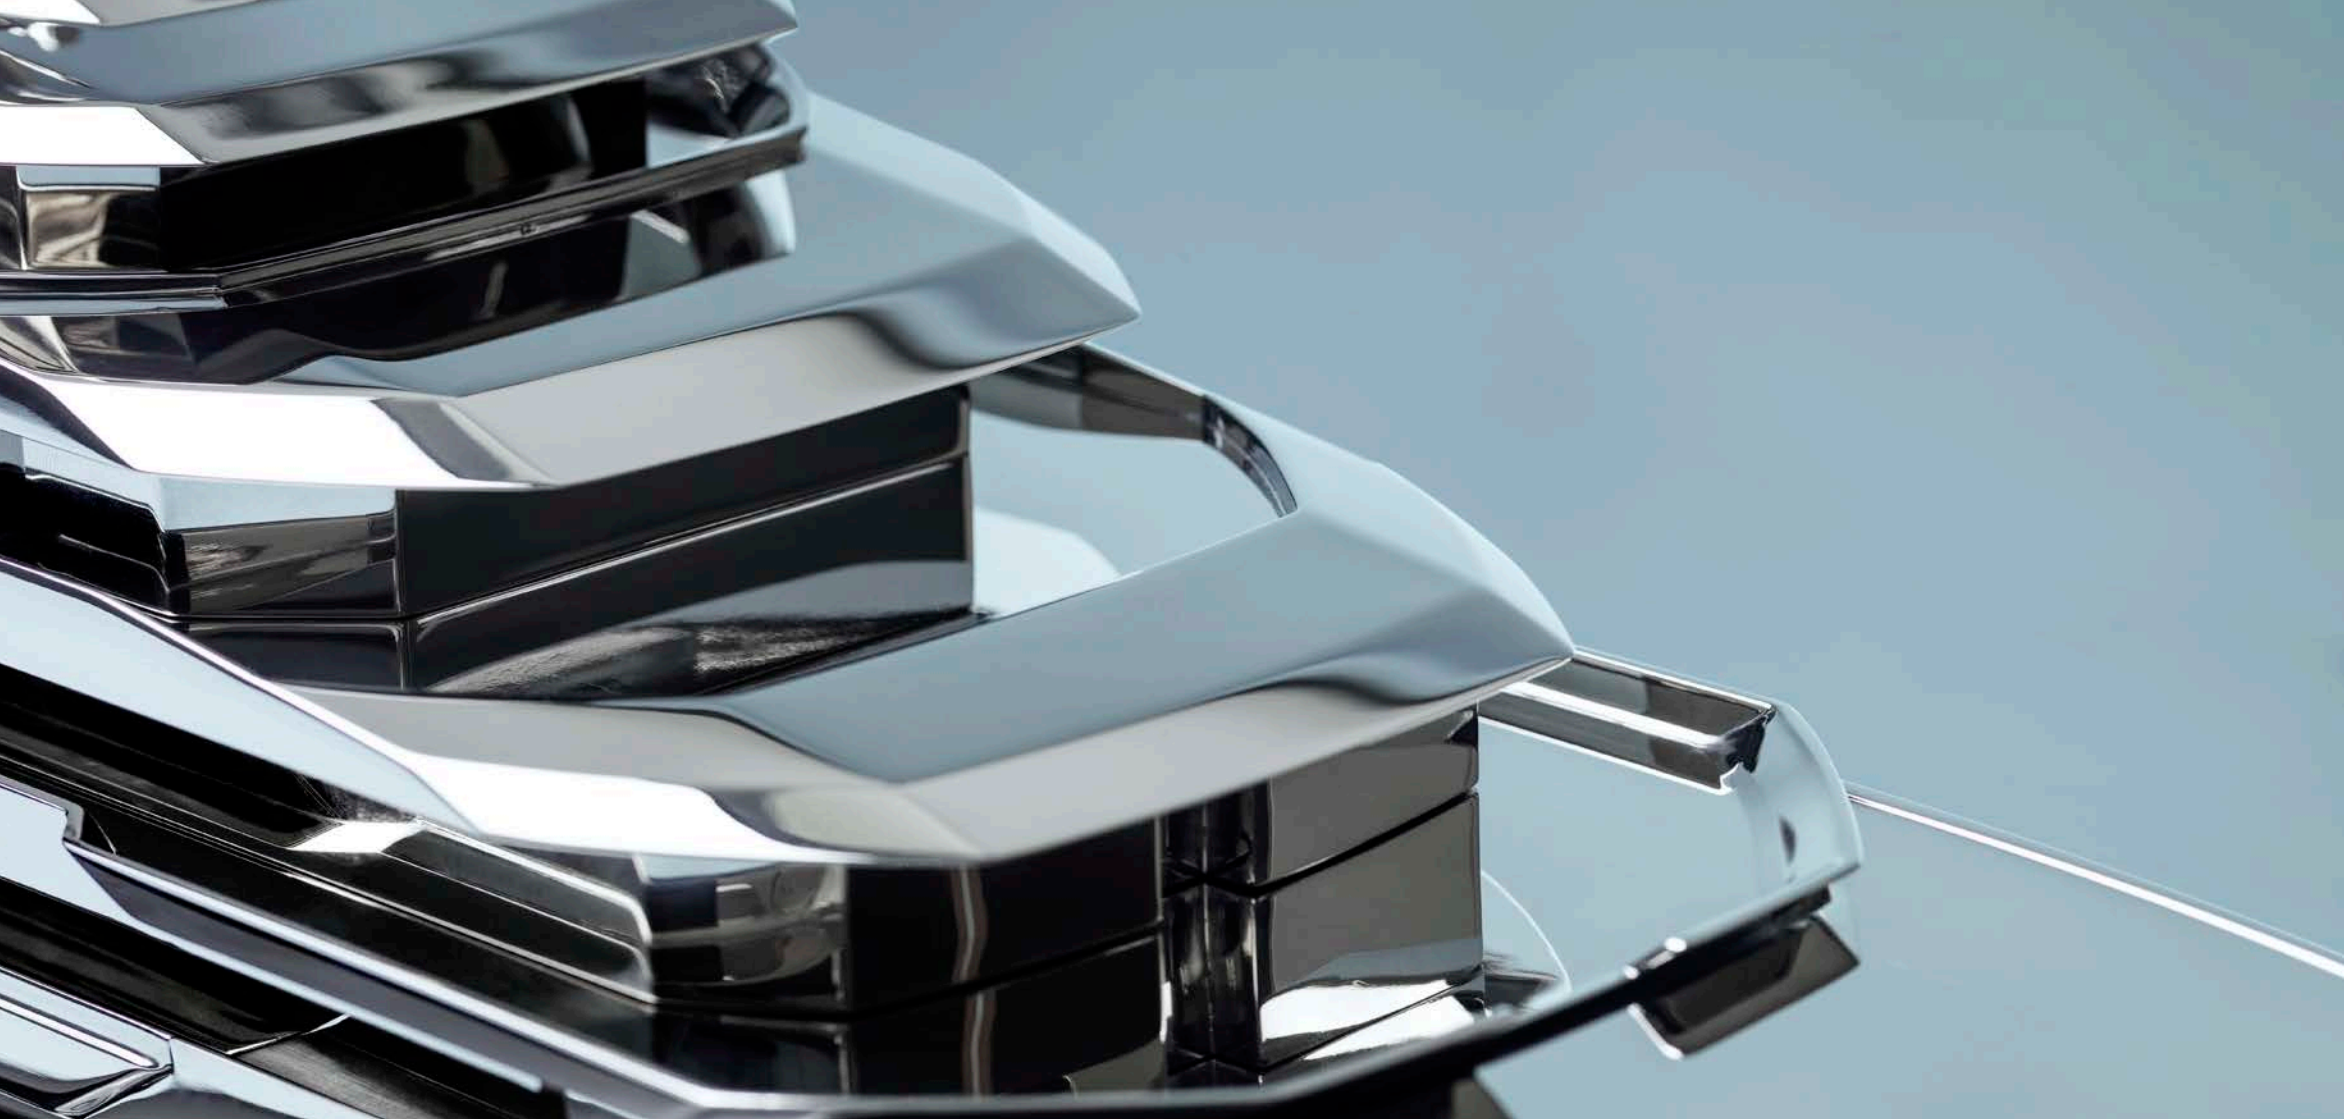

Timeless Gifts

Whether celebrating a passion for the sea or commemorating a boat's legacy, yacht models are a meaningful gift for all. For yacht owners, captains and professionals, a custom model immortalises the boat in exquisite detail, capturing her unique character.

Models could be commissioned as gifts, milestone celebrations or tributes to a lifetime spent on the water. Each model tells a story, preserving not just the lines of a hull but the memories of adventures, voyages and quiet moments at anchor.

These are more than decorative objects. They become cherished heirlooms passed down through families, carrying with them tales of the sea and connecting generation to generation.

One of a Kind Models

For striking visual moments when clients enter a design studio, to showstopping centrepieces that command attention, metal-plated yacht models offer an entirely different aesthetic to traditional painted finishes.

These gleaming sculptures transform a model from a representation into a work of art, making an immediate impression on prospective clients. These models create a lasting statement about quality, heritage and the timeless allure of yachting.
